Keyboard Macro is a powerful utility that enables you to save your regular workflows and shortcuts, share them with your colleagues, and even create your own macros. We should point out that this tool is both an advanced text editor and a powerful tool for creating keyboard shortcuts, and we're especially fond of its inbuilt macro editor. You'll find several key settings within the Basic settings tab, including available code snippets, keyboard shortcuts, and toolbars, with extensive formatting options and a well-developed template library. Easy workflows, instant updates, and an all-in-one development environment Of course, you'll be able to view your macros in an organized manner, and navigate from one to the other easily. The setup process is quite straightforward as well. You simply need to install the program, navigate to the Preferences menu and either add your macros or import them from the Keyboard Macro manager, and start using your shortcuts and workflows right away. You'll find dozens of editable keyboard shortcuts within the Macro editor, which is a great way to create or edit macros within the program and even import or export them to Excel and XML. In case you'd like to export your macros to a TXT file, then you are welcomed by the Macro Manager. If you're not sure what you should use Keyboard Macro for, we can recommend you to opt for, for instance, Auto-save-To-Macro, and Start/Pause-To-Macro, both of which we highly recommend. Keyboard Macro is a must-have utility that enables you to save workflows and shortcuts, share them with your colleagues, and even create your own macros. Multiline Auto Copy can be used as a simple text editor or a full-featured word processor. You can create documents with as many paragraphs and sections as you like, and even keep track of the number of pages in your document in the Count column. In addition to this, you can easily create multi-section documents with headings, and if you need, apply bold, italic, underline, strikethrough, and even align formatting. You can also use the program's text wrapping feature to create documents that fit your screen width perfectly, with more than a thousand characters per page. Highlights: \* Create multi-section documents with headings, including numbered, bulleted, and framed lists. \* Easily apply bold, italic, underline, striketh 2edc1e01e8
